

# CURRICULUM VITAE

## Marco A. R. Ferreira

Virginia Tech  
Department of Statistics  
210-C Hutcheson Hall  
Blacksburg, VA 24061 USA

marf@vt.edu  
<https://marf-at-vt.github.io/>

### EDUCATION

- Ph.D. in Statistics, Duke University, 2002. (Thesis advisor: M. West).
- M.Sc. in Statistics, Federal University of Rio de Janeiro, 1994.
- B.Sc. in Statistics, Federal University of Rio de Janeiro, 1993.

### WORK EXPERIENCE

- *Professor*. Dept Statistics. Virginia Tech. Aug 2023 – present.
- *Associate Professor*. Dept Statistics. Virginia Tech. Aug 2014 – Aug 2023.
- *Director of Graduate Programs*. Dept Statistics. Virginia Tech. May 2016 – May 2020.
- *Director of Graduate Studies*. Dept Stats. University of Missouri – Columbia. Aug 2013 – July 2014.
- *Associate Professor*. Dept Statistics. University of Missouri – Columbia. Sep 2010 – July 2014.
- *Assistant Professor*. Dept Statistics. University of Missouri – Columbia. Sep 2006 – Aug 2010.
- *Assistant Professor*. Dept Statistics. Federal University of Rio de Janeiro. Aug 2002 – Aug 2006.

### GRANTS AND CONTRACTS

#### CURRENT

- G1. Co-PI (PI: Tegge), Indivior Inc, “Recovery from Opioid Use Disorder: Open Data Initiative,” \$1,296,675 (Indirect costs \$458,192), 2022–2025, Percent credit: 30%.
- G2. Co-I (PI: Tegge), NIH 1R21DA057580-01, “Recovery from Opioid Use Disorder: subgroups, transition states, and their association with recovery outcomes,” \$412,898 (Indirect costs \$137,898), 2022–2025, Percent credit: 36%.

#### PENDING

- G3. M-PI (M-PI: Tegge), NIH, “Recovery from alcohol use disorder: novel statistical methods to identify subgroups, trajectories, and moderators,” \$2,645,997 (Indirect costs \$934,352), 2025–2030, Percent credit: 30%.

#### COMPLETED

- G4. PI, NSF, DMS-2054173 (Supplementary funds for DMS-1853549), “Collaborative Research: Development of New Statistical Methods for Genome-Wide Association Studies,” \$157,024 (Indirect costs \$45,208), 2020–2023, Percent credit: 100%.
- G5. PI, NSF, DMS-1853549, “Collaborative Research: Development of New Statistical Methods for Genome-Wide Association Studies,” \$146,886 (Indirect costs \$50,339), 2019–2023, Percent credit: 100%.

- G6. Co-PI (PI: Tegge), Academy of Data Science Discovery Fund, “Recovery from Opioid Use Disorder: Subgroup Identification Using Bayesian Dynamic Factor Models”, \$14,516, 2021–2022, Percent credit: 50%.
- G7. Statistician, POQQVPQI Indivior Contract, (PI: Bickel), “Remission from Chronic Opioid Use: Study of Environmental and Socioeconomic Factors on Recovery,” \$1,750,000 (Indirect costs \$206,277), 2020-2021, Percent credit: 1%.
- G8. Co-PI (PI: Franck), COS Dean’s Discovery Fund, “Spatial Analytics Platform,” \$20,000, 2018–2019, Percent credit: 40%.
- G9. PI, UMC Research Board, “Multiscale Analysis to Improve fMRI Temporal Resolution,” \$35,000, 2012–2014, Percent credit: 35.9%.
- G10. Fellow, SAMSI Research Fellowship, “Program on Statistical and Computational Methodology for Massive Datasets,” \$23,700, 2012–2013, Percent credit: 100%.
- G11. PI, NSF, DMS-0907064, “Bayesian Optimal Sequential Design for Random Function Estimation,” \$130,000 (Indirect costs: \$37,664), 2009–2013, Percent credit: 100%.
- G12. PI, Faculty International Travel Award, University of Missouri, to give talk in the Sixth Workshop on Objective Bayes Methodology and in the Fifth Workshop on Bayes Inference in Stochastic Processes, \$1,500, 2007, Percent credit: 100%.
- G13. PI, CNPq 453739/2005-9. “Financial support for the Eighth Bayesian Meeting on Bayesian Statistics,” \$6,482, 2006, Percent credit: 100%.
- G14. PI, CNPq 479093/2004-0. “Spatio-temporal models for areal data in the Exponential Family,” \$2,734, 2005–2007, Percent credit: 100%.
- G15. CNPq International Travel Award to give talk in the 2nd Latin American Meeting on Bayesian Statistics, 2005, \$1,500, Percent credit: 100%.
- G16. PI, CNPq 402010/2003-5. “Bayesian Multiscale Phylogenetic Supertrees,” PI, \$13,329, 2004–2006, Percent credit: 100%.
- G17. PI, FUJB 10723-9. “Bayesian Multiscale Models,” PI, \$1,715, 2002–2003, Percent credit: 100%.

## **BOOKS**

- B1. **M.A.R. Ferreira** (Editor) (2024), Modeling Spatio-Temporal Data: Markov Random Fields, Objective Bayes, and Multiscale Models, Boca Raton: Chapman Hall/CRC.
- B2. R. Prado, **M.A.R. Ferreira**, M. West (2021), Time Series: Modeling, Computation, and Inference, Second Edition, Boca Raton: Chapman Hall/CRC.
- B3. **M.A.R. Ferreira** and H.K.H. Lee (2007), Multiscale Modeling – A Bayesian Perspective, Springer Series in Statistics, New York: Springer.

## **HONORS**

- Elected Representative to the Council of Sections, Section on Bayesian Statistical Science, American Statistical Association, 2024.
- Associate Editor of Bayesian Analysis, the journal of the International Society for Bayesian Analysis, August 2009 – December 2024.
- Elected Chair of the Objective Bayes Section, International Society for Bayesian Analysis, 2022.
- Elected Chair of the Industrial Statistics Section, International Society for Bayesian Analysis, 2018.
- OBAYES Poster Prize - 2009 International Workshop on Objective Bayesian Methodology, 2009.
- CNPq Research Fellow (Brazil) from August 2003 to August 2006.

- WNAR / COBAL 2 Award for Best Poster Presentation, Western North American Region of the International Biometric Society / ISBA, 2005. (with T.C.O. Fonseca and H.S. Migon)
- Springer Poster Prize - IV International Workshop on Objective Bayesian Methodology, ISBA, 2003.
- Antônio Luiz Vianna Award, Fundação Universitária José Bonifácio, 2002.
- Best contributed paper of the Computational Statistical Section, JSM 2000, American Statistical Association, 2000. (with H.K.H. Lee, D. Higdon and M. West)

## **SOFTWARE**

- S1. DIFM – R package for the analysis of dynamic ICAR spatiotemporal factor models. This is based on Shin and Ferreira (2023). First author of the package is Hwasoo Shin. Available on CRAN.
- S2. BG2 – R package for Bayesian analysis of genome-wide association studies for non-Gaussian data. This is based on Xu, Williams and Ferreira (2023). First author of the package is Jacob Williams. Available on Bioconductor. DOI: 10.18129/B9.bioc.BG2.
- S3. GLMMselect – R package for Bayesian model selection for generalized linear mixed models. This is based on Xu, Ferreira, Porter and Franck (2023). First author of the package is Shuangshuang Xu. Available on CRAN.
- S4. GWAS.BAYES – R package for Bayesian analysis of genome-wide association studies data. This is based on Williams, Ferreira and Ji (2022). First author of the package is Jacob Williams. Available on Bioconductor. DOI: 10.18129/B9.bioc.GWAS.BAYES.
- S5. ref.ICAR – R package for Objective Bayesian analysis of hierarchical models with CAR priors. This is based on Keefe, Ferreira and Franck (2018, 2019). First author of the package is Erica Porter. Available on CRAN.
- S6. bosd – R package for Bayesian optimal sequential design for monitoring stations networks and for nonparametric regression. This is based on Ferreira (2015) and on Ferreira and Sanyal (2014) and uses inhomogeneous evolutionary MCMC.
- S7. BHMSMAfMRI - R package for the analysis of fMRI data from multiple subjects. This is based on Sanyal and Ferreira (2012) and uses wavelet basis priors that borrow strength across subjects. Software website at <https://nilotpalsanyal.github.io/BHMSMAfMRI/>. Available on CRAN.
- S8. mrm - R package with functions to support hidden resolution models for time series analysis and Gaussian process modeling of 1D and 2D (spatial) data via multiscale convolution methods, as described in the book ‘Multiscale Modeling – A Bayesian Perspective,’ by Ferreira and Lee (2007).

## **INVITED TALKS**

### **INTERNATIONAL INVITED KEYNOTE TALKS**

1. Bayesian genome-wide iterative fine-mapping, 7th Latin-American Meeting on Bayesian Statistics, Belo Horizonte, Brazil, December 2024.
2. Objective Bayesian Analysis for Gaussian Hierarchical Models with Intrinsic Conditional Autoregressive Priors, Brazilian Meeting on Bayesian Statistics (EBEB 2018), Rio de Janeiro, Brazil, March 2018.

### **INTERNATIONAL INVITED TALKS**

1. Genome-wide iterative fine-mapping, CMStatistics 2024, London, United Kingdom, December 2024.
2. Iterative Bayesian Analysis of GLMMs for Non Gaussian GWAS Data, CMStatistics 2023, Berlin, Germany, December 2023.
3. Bayesian analysis of GLMMs with nonlocal priors for genome-wide association studies, CMStatistics 2022, London, United Kingdom, December 2022.
4. Bayesian multivariate time series analysis for environmental science and neuroscience, (Invited short course), 2022 World Meeting of the International Society for Bayesian Analysis (ISBA 2022), Montreal, Canada, June 2022.
5. Objective Bayesian model selection for spatial hierarchical models with intrinsic conditional autoregressive priors, CMStatistics 2021, London, United Kingdom, December 2021.
6. Novel dynamic multiscale spatiotemporal models for multivariate Gaussian data with applications to stratospheric temperatures, 2021 Meeting of the International Society Bayesian Analysis, July 2021.
7. A novel Bayesian framework for the analysis of GWAS data, CMStatistics 2020, London, United Kingdom, December 2020.

8. Bayesian analysis for multi-subject time course gene expression with an application to vaccine immune response (Presenter: Allison Tegge), CMStatistics 2020, London, United Kingdom, December 2020.
9. Fast and scalable posterior simulation for Gaussian hierarchical models with ICAR spatial random effects, CMStatistics 2019, London, United Kingdom, December 2019.
10. Bayesian Time Series Analysis for Environmental Science and Neuroscience (Invited short course), 2018 World Meeting of the International Society for Bayesian Analysis (ISBA 2018), Edinburg, United Kingdom, June 2018.
11. Objective Bayesian Analysis for Gaussian Hierarchical Models with Intrinsic Conditional Autoregressive Priors, Small Area Estimation: A Celebration of Professor Danny Pfeiffermann's 75th Birthday, Shanghai, China, June 2018.
12. On the Formal Specification of Sum-zero Constrained Intrinsic Conditional Autoregressive Models, Federal University of Rio de Janeiro, Rio de Janeiro, Brazil, March 2018.
13. Scale Mixtures of Nonlocal Priors for Variable Selection in Generalized Linear Models (Presenter: Ho-Hsiang Wu), ICOSDA 2016, Niagara Falls, Canada, October 2016.
14. Objective Bayesian Analysis for Gaussian Improper CAR Models (Presenter: Matthew Keefe), ICOSDA 2016, Niagara Falls, Canada, October 2016.
15. Dynamic Multiscale Spatiotemporal Models for Gaussian and Poisson Processes, Workshop on Big Data in Environmental Science, Vancouver, Canada, May 2015.
16. An analysis of functional MRI with a three components hemodynamic response function, XIV Regression Models Meeting, Campinas, SP, Brazil, March 2015.
17. Bayesian Hierarchical Multi-subject Multiscale Analysis of Functional MRI Data, International Workshop on Bayes Model Selection, Shanghai, China, January 2013.
18. Bayesian Hierarchical Multi-subject Multiscale Analysis of Functional MRI Data, ISBA 2012 Meeting, Kyoto, Japan, June 2012.
19. Bayesian optimal sequential design for nonparametric regression, XI Brazilian Meeting on Bayesian Statistics, Amparo, Brazil, March 2012.
20. Dynamic Multiscale Spatio-Temporal Models for Gaussian Areal Data, Seventh Workshop on Bayesian Inference In Stochastic Processes, Madrid, Spain, September 2011.
21. Objective Bayesian Analysis for Exponential Power Regression Models, OBAYES 2011, Shanghai, China, June 2011.
22. Dynamic Multiscale Spatio-Temporal Models for Gaussian Areal Data, Federal University of Rio de Janeiro, Brazil, May 2011.
23. Invited Discussion on Characterizing Uncertainty of Future Climate Change Projections Using Hierarchical Bayesian Models by Tebaldi, Smith and Sanso, Ninth Valencia International Meeting on Bayesian Statistics, Benidorm, Spain, June 2010.
24. Spatio-temporal models for Gaussian areal data, X Bayesian Meeting on Bayesian Statistics, Angra dos Reis, Brazil, March 2010.
25. Gaussian multiscale spatio-temporal models, Federal University Rio de Janeiro, Brazil, August 2008.
26. Objective Bayesian analysis for the Student-t regression model, Universidad Nacional, Bogota, Colombia, December 2007.
27. Bayesian Analysis of Continuous-Time Markov Chains, Workshop on Bayesian Time Series and Econometrics, Rio de Janeiro, Brazil, July 2007.
28. Objective Bayesian analysis for the Student-t regression model, VI International Workshop on Objective Bayes Methodology, Rome, Italy, June 2007.
29. Objective Bayesian analysis for the Student-t regression model, Universidade Técnica de Lisboa, Lisbon, Portugal, May 2007.
30. Spatio-Temporal Models for Areal Data, First Workshop on Spatial Statistics and Computationally Intensive Methods, Curitiba, Brazil, October 2005.
31. Bayesian Multiscale Modeling, Second Latin American Conference on Bayesian Statistics, Los Cabos, Mexico, February 2005.

32. Bayesian Multiscale Modeling, 16th Brazilian Symposium on Probability and Statistics, Caxambu, Brazil, July 2004.
33. Bayesian Reference Analysis for Gaussian Markov Random Fields, University of Campinas, Brazil, May 2004.
34. Multiscale and Hidden Resolution Models, 10th Time Series and Econometrics Meeting, São Pedro, Brazil, August 2003.
35. Bayesian Multiscale Modeling, 8th Regression Models Meeting, Conservatória, Brasil, February 2003.
36. A Class of Multi-Scale Time Series Models, First Latin American Conference on Bayesian Statistics, Ubatuba, Brazil, February 2002.

### **INVITED KEYNOTE TALKS IN THE UNITED STATES**

1. Bayesian genome-wide iterative fine-mapping, StatSci Research Alumni Symposium, Duke University, Durham, NC, November 2024.

### **INVITED TALKS IN THE UNITED STATES**

1. Bayesian Dynamic ICAR Factor Models for Spatiotemporal Data, Topic-contributed talk at the Joint Statistical Meetings, Toronto, Canada, August 2023.
2. Bayesian analysis of GLMMs with nonlocal priors for genome-wide association studies (Presenter: Jacob Williams), The 36th New England Statistics Symposium, Boston, MA, June 2023.
3. Bayesian analysis of GLMMs with nonlocal priors for genome-wide association studies, International Conference on Advances in Interdisciplinary Statistics and Combinatorics – AISC 2022, Greensboro, NC, October 2022.
4. Invited Discussion on “Model uncertainty quantification in presence of missing data,” by Castellanos et al., OBayes 2022, Santa Cruz, CA, September 2022.
5. Objective Bayesian model selection for Gaussian hierarchical models with Besag’s ICAR spatial random effects, University of Washington, Seattle, WA, February 2022.
6. High performance Bayesian computing with applications to spatial/spatiotemporal data analysis and genome wide association studies, SIAM Conference on Parallel Processing for Scientific Computing, Seattle, WA, February 2022.
7. Novel dynamic multiscale spatiotemporal models for multivariate Gaussian data with applications to stratospheric temperatures, 2021 International Indian Statistical Association Meeting, Chicago, IL, May 2021.
8. Bayesian Time Series Analysis and Forecasting (Short course), Joint Statistical Meetings 2019, Denver, CO, August 2019.
9. Objective Bayesian Analysis for Gaussian Hierarchical Models with Intrinsic Conditional Autoregressive Priors, 44th Spring Lecture Series, Fayetteville, AR, April 2019.
10. Bayesian Time Series Analysis and Forecasting (Short course), Joint Statistical Meetings 2017, Baltimore, MD, August 2017.
11. Objective Bayesian Analysis for Gaussian Hierarchical Models with Intrinsic Conditional Autoregressive Priors, Annual Kliakhandler Conference, Houghton, MI, August 2017.
12. Dynamic Multiscale Spatiotemporal Models for Poisson data, ISBIS 2017, Yorktown Heights, NY, June 2017.
13. Dynamic Multiscale Spatiotemporal Models for Poisson data, ENAR 2017, Washington, DC, 2017.
14. Dynamic multiscale spatiotemporal models for Poisson data (Presenter: T.C.O. Fonseca), JSM 2014, Boston, MA, August 2014.
15. Looking at the world at multiple scales of resolution, Interdisciplinary Modeling Group, University of Missouri, Columbia, MO, April 2014.
16. Bayesian Reference Analysis for Exponential Power Regression Models, University of Missouri, Columbia, MO, April 2014.

17. Bayesian Multiscale Analysis for fMRI Datasets, International Conference in Honor of H.N. Nagaraja, Dallas, TX, March 2014.
18. Multiscale Spatiotemporal Modeling, University of Virginia, Charlottesville, VA, February 2014.
19. Multiscale Spatiotemporal Modeling, Virginia Tech, Blacksburg, VA, February 2014.
20. Dynamic multiscale spatiotemporal models for Poisson data, Washington University, Saint Louis, MO, November 2013.
21. Dynamic multiscale spatiotemporal models for Poisson data, Virginia Tech, Blacksburg, VA, November 2013.
22. Looking at the world at multiple scales of resolution, Truman State University, Kirksville, MO, November 2013.
23. Bayesian Analysis for Exponential Power Regression Models, International Conference on Statistical Distributions and Applications – ICOSDA 2013, Mount Pleasant, MI, October 2013.
24. Dynamic multiscale spatiotemporal models for Poisson data, SAMSI Program on Statistical and Computational Methodology for Massive Datasets – Transition Workshop, Research Triangle Park, NC, May 2013.
25. Bayesian Hierarchical Multi-subject Multiscale Analysis of Functional MRI Data, Penn State University, October 2012.
26. Looking at the World at Multiple Scales of Resolution, SAMSI Undergraduate Workshop, Durham, North Carolina, October 2012.
27. Multiscale Spatio-Temporal Models for Gaussian Areal Data, 25th Anniversary Celebration of the Department of Statistical Science at Duke University, October 2012.
28. Bayesian Hierarchical Multi-subject Multiscale Analysis of Functional MRI Data, University of North Carolina, October 2012.
29. Evolutionary Markov chain Monte Carlo for Bayesian optimal sequential design, Cedars-Sinai Medical Center, September 2012.
30. Multiscale Spatio-Temporal Models for Gaussian Areal Data, George Washington University, Washington D. C., March 2012.
31. Dynamic Multiscale Spatio-Temporal Models for Gaussian Areal Data, 4th Lehmann Symposium, Houston, Texas, May 2011.
32. Dynamic Multiscale Spatio-Temporal Models for Gaussian Areal Data, Univ. of Minnesota, 2011.
33. Hierarchical Multiscale Analysis of Functional MRI Data, Joint Statistical Meetings 2010, Vancouver, Canada, August 2010.
34. Dynamic Multiscale Spatio-Temporal Models for Gaussian Areal Data, SAMSI Spatial Transition Workshop, Durham, NC, October 2010.
35. Dynamic Multiscale Spatio-Temporal Models for Areal Data, Duke University, April 2010.
36. Objective Bayesian Analysis for Exponential Power Regression Models, University of Chicago, October 2009.
37. Dynamic Bayesian Multiscale Modeling, Iowa State University, April 2009.
38. Dynamic Bayesian Multiscale Modeling, University of Connecticut, Storrs, November 2008.
39. Dynamic multiscale modeling, M. D. Anderson Cancer Center, Houston, Texas, October 2008.
40. Gaussian multiscale spatio-temporal models, 2008 International Indian Statistical Association Meeting, Storrs, Connecticut, May 2008.
41. Gaussian multiscale spatio-temporal models, 2008 Spring Research Conference on Statistics in Research and Technology, Atlanta, May 2008.
42. Spatio-temporal models for Gaussian areal data, Division of Biostatistics, Washington University, St Louis, February 2008.
43. Bayesian Reference Analysis for the Generalized Hyperbolic Distribution, Graduate School of Business, University of Chicago, December 2004.
44. Bayesian Multiscale Modeling, Joint Statistical Meetings 2003, San Francisco, California, 2003.

## **PROFESSIONAL SERVICE**

### **INTERNATIONAL PROFESSIONAL SERVICE**

- Chair, Objective Bayes Section of the International Society Bayesian Analysis, January 2025 – December 2026.
- Associate Editor of Bayesian Analysis, the journal of the International Society for Bayesian Analysis, August 2009 – December 2024.
- Chair-elect, Objective Bayes Section of the International Society Bayesian Analysis, January 2023 – December 2024.
- Chair, Industrial Statistics Section of the International Society Bayesian Analysis, January 2021 – December 2022.
- Associate Editor of Brazilian Journal of Probability and Statistics, February 2015 – June 2021.
- Program Committee member, CMStatistics 2020, London, United Kingdom, 2020.
- Chair (by invitation) of session on spatio-temporal modeling methods and applications, 2021 Meeting of the International Society Bayesian Analysis, July 2021.
- Lindley Prize Award Committee member, International Society Bayesian Analysis, Sep 2019 – Dec 2019.
- Chair-elect, Industrial Statistics Section of the International Society Bayesian Analysis, January 2019 – December 2020.
- Program Committee member, CMStatistics 2019, London, United Kingdom, 2019.
- Organizer of invited session, CMStatistics 2018, Pisa, Italy, 2018.
- Scientific Committee Member, International Conference on Statistical Distributions and Applications 2016, Niagara Falls, Canada, October 2016.
- Mitchell Prize Award Committee member, International Society Bayesian Analysis, Aug 2015 – Aug 2016.
- Savage Award Committee member, International Society Bayesian Analysis, Aug 2014 – Aug 2015.
- Savage Award Committee member, International Society Bayesian Analysis, Aug 2012 – Aug 2013.
- Program Committee member, Use R! 2009, Rennes, France, 2009.
- Scientific Committee member, Fifth Workshop on Bayesian Inference in Stochastic Processes, Valencia, Spain, 2007.
- Chair, Scientific Committee, 8th Brazilian Meeting on Bayesian Statistics, Rio de Janeiro, 2006.

### **PROFESSIONAL SERVICE IN THE UNITED STATES**

- Section Representative, Council of Sections, Section on Bayesian Statistical Sciences, American Statistical Association, 2025–2027.
- Guest Editor, Journal of Statistical Theory and Practice, Topical Collection on Deep Learning, 2023–2024.
- Member, NSF panels, 2015 (twice), 2019, 2020 (twice), 2023, 2024.
- Organizer of topic contributed session, 2023 JSM Meeting, Toronto, Canada, 2023.
- Mentor, Math Alliance, <https://mathalliance.org/mentor/marco-ferreira/>, October 2017 – present.
- Vice President, Virginia Chapter of the American Statistical Association, 2018 – 2020.
- Tenure and promotion review, University of Minnesota.
- Tenure and promotion review, Drexel University.
- Tenure and promotion review, Brigham Young University.
- Associate Editor, Journal of Statistical Distributions and Applications, December 2013 - March 2017.

- Organizer of invited session, 2014 JSM Meeting, Boston, MA, 2014.
- Scientific Committee member, Conference for 50th Anniversary of the Department of Statistics, University of Missouri – Columbia, Aug 2012 – Aug 2013.
- Leader, SAMSI Multiscale Modeling Working Group, September 2012 – May 2013.
- Reviewer for SBSS Student Paper Competition/Travel Awards, JSM 2012.
- Treasurer, Mid-Missouri Chapter, American Statistical Association, January 2008 – October 2010.
- Refereed papers for the following journals (in alphabetical order): Annals of Applied Statistics, Annals of the Institute of Statistical Mathematics, Bayesian Analysis, Bioinformatics, Biometrics, Biostatistics, Brazilian Journal of Probability and Statistics, Canadian Journal of Statistics, Computational Statistics and Data Analysis, Digital Signal Processing, Ecological and Environmental Statistics, Electronic Journal of Statistics, Environmetrics, IEEE Image Processing, IEEE Signal Processing, International Statistical Review, Journal of Applied Statistics, Journal of Biopharmaceutical Statistics, Journal of Computational and Graphical Statistics, Journal of Multivariate Analysis, Journal of Statistical Computation and Simulation, Journal of Statistical Planning and Inference, Journal of the American Statistical Association, Journal of the Royal Statistical Society - Series A, Journal of the Royal Statistical Society - Series B, Mathematical Medicine and Biology, Neuroimage, Revista de la Real Academia de Ciencias Exactas (Spain), Sankhya, Scandinavian Journal of Statistics, Stat, Statistica Neerlandica, Statistical Methodology, Statistical Modeling, Statistics Computing, Systematic Biology, Technometrics, Test.

## **DEPARTMENTAL SERVICE**

- Chair, Qualifying Exam Committee, Dept Statistics, Virginia Tech, January 2024 – present.
- Member, Graduate Program Committee, Dept Statistics, Virginia Tech, May 2016 – present.
- Member, Graduate Admissions Committee, Dept Statistics, Virginia Tech, May 2016 – July 2023.
- Director of Graduate Programs, Dept Statistics, Virginia Tech, May 2016 – May 2020.
- Chair, Graduate Program Committee, Dept Statistics, Virginia Tech, May 2016 – May 2020.
- Chair, Graduate Admissions Committee, Dept Statistics, Virginia Tech, May 2016 – May 2020.
- Member, Executive Committee, Dept Statistics, Virginia Tech, January 2017 – May 2020.
- Member, Internal Review Committee, Dept Statistics, Virginia Tech, June 2016 – August 2017.
- Chair, Dept Statistics Colloquium Series, Virginia Tech, August 2015 – May 2016.
- Co-chair, Dept Statistics Colloquium Series, Virginia Tech, August 2014 – May 2015.
- Director of Graduate Studies, Dept Statistics, UMC, September 2013 – July 2014.
- Advisory Committee member, Dept Statistics, UMC, September 2012 – July 2014.
- Faculty Search Committee member, Dept Statistics, UMC, May 2012 – April 2014.
- Chair, Dept Statistics Colloquium Series, UMC, August 2011 – May 2012.
- Chair, Dept Statistics Ph.D. Qualifying/Preliminary Exam Committee, UMC, Aug 2010 – Feb 2011.
- Chair, Dept Statistics Search Committee for Teaching Assistant Professor position, UMC, 2009.
- Chair, Committee to assess statistics courses needs for Informatics Institute students, Spring 2009.
- Organizer, UMC Bayesian Reading Group. Aug 2007 – December 2009.
- Co-chair, Dept Statistics Colloquium Series, UMC, Aug 2007 – May 2008.
- Reviewer, UMC Research Board grant applications, 2007 and 2009.

## PAST GRADUATE STUDENTS

- Ph.D. Students
  - Shuangshuang Xu (2024), Variable selection for generalized linear mixed models and non-Gaussian genome-wide associated study data. Current position: Postdoctoral Fellow at the Fralin Biomedical Research Institute, Virginia Tech.
  - Hwasoo Shin (Co-advisor: Allison Tegge) (2024), Bayesian factor models for clustering and spatiotemporal analysis. Current position: Biostatistics Faculty at Henry Ford Health.
  - Jacob Williams (2023), Bayesian ultra-high dimensional variable selection for linear mixed models with applications in genome wide association studies. Current position: Postdoctoral Fellow at the National Cancer Institute - NIH.
  - Stephen Walsh (Co-advisor: David Higdon) (2023), Bayesian Uncertainty Quantification while Leveraging Multiple Computer Model Runs. Current position: Tenure-track Assistant Professor at Elms College.
  - Erica Porter (Co-advisor with Christopher Franck) (2023), Bayesian Model Selection for Spatial Data and Cost-constrained Applications. Current position: Postdoctoral Fellow at Clemson University.
  - Mohamed Elkhoully (2019), Bayesian Analysis of Temporal and Spatio-temporal Multivariate Environmental Data. Current position: Tenure-track Assistant Professor at Cleveland State University.
  - Matthew Keefe (co-advisor with C. Franck) (2017), Statistical Monitoring and Modeling for Spatial Processes. Current position: Senior Decision Science Consultant at The Walt Disney Company.
  - Ho-Hsiang Wu (co-advisor T. Ji) (2016), Nonlocal Priors for Bayesian Variable Selection in Generalized Linear Models and Generalized Linear Mixed Models and Their Applications in Biology Data. Current position: Mathematical Statistician at Food and Drug Administration (FDA).
  - Yuan Cheng (2015), Bayesian Analysis of fMRI Data and RNA-Seq Time Course Experiment Data. Current position: Associate Director of Biostatistics, Global Development of Hematology and Oncology Group, Regeneron Pharmaceutical.
  - Shiqi Cui (co-advisor with S. Guha) (2014), Bayesian Analysis for Detecting Differentially Expressed Genes from RNA-Seq Data. Current position: Data Scientist Manager at the Apple Siri Search Division, Apple.
  - Nilotpall Sanyal (2012), Bayesian fMRI data analysis and Bayesian optimal design. Current position: Tenure-track Assistant Professor at University of Texas at El Paso.
  - Juan Vivar (2007), Spatio-temporal models for areal data in the exponential family. Current position: Mathematical Statistician at Food and Drug Administration (FDA).
  - Adelmo I. Bertolde (2007), Multiscale spatio-temporal modeling. Current position: Associate Professor at Federal University of Espírito Santo, Brazil.
  - Ramiro Ruiz-Cárdenas (co-advisor A. Schmidt) (2007), Optimal design of pollutant monitoring networks. Current position: Independent Statistical Consultant.
  - Mariane B. Alves (co-advisor with D. Gamerman) (2006), Bayesian analysis of state-space models with transfer functions. Current position: Associate Professor at Federal University of Rio de Janeiro, Brazil.
- M.Sc. Students
  - Erica M. Porter (Co-advisor with Christopher Franck) (2019), Applying an Intrinsic Conditional Autoregressive Reference Prior for Areal Data.
  - Wensheng Kang (2008), A Bayesian Method to Extract a Latent Dynamic Factor of Nonstationary Time Series Panel Data.
  - Elizabeth B. Hypolito (2005), A Bayesian response to Suzuki's paradox.
  - Cristiane Duarte (2004), A Bayesian analysis of educational data.
  - Thaís C. O. Fonseca (co-advisor H. S. Migon) (2004), Bayesian reference analysis for the class of generalized hyperbolic distributions.
  - Juan C. Vivar (2004), A new class of spatio-temporal models for areal data.

## **CURRENT GRADUATE STUDENTS**

- Ph.D. Students
  - Tsering Dolkar (Co-advisor: Allison Tegge), August 2022 – present.
  - David Hinds (Co-advisor: Allison Tegge), August 2023 – present.
  - Christopher Conte (Co-advisor: Allison Tegge), August 2023 – present.

## **PAST POSTDOCTORAL ASSOCIATES**

- Andre G. C. Pereira, January 2016 – December 2017.
- Viviane S. M. Campos, January 2016 – December 2017.

## **TEACHING**

- Virginia Tech
  - Undergraduate level: STAT 4534/5664 – Applied Time Series Analysis.
  - Graduate level: STAT 5414 – Time Series Analysis I; STAT 5544 – Spatial Statistics; STAT 6984 – Multivariate Time Series Analysis.
- University of Missouri, Columbia
  - Undergraduate level: STAT 4710/7710 – Introduction to Mathematical Statistics.
  - Graduate level: STAT 7750 – Introduction to Probability Theory; STAT 7760 – Statistical Inference; STAT 8640 – Bayesian Analysis I; STAT 9100 – Multiscale Modeling; STAT 9250 – Statistical Computation and Simulation; STAT 9210 – Bayesian Statistics; STAT 9720 – Mathematical Statistics II.
- Federal University of Rio de Janeiro
  - Undergraduate level: Introduction to probability and statistics; Statistical inference; Probability; Nonparametric statistics; Decision theory; Survival analysis.
  - Graduate level: Computational statistics; Bayesian theory; Multiscale models; Spatio-temporal models.

## **PROFESSIONAL AFFILIATION**

- American Statistical Association (Member).
- International Society for Bayesian Analysis (Member).
- Society for Industrial and Applied Mathematics (Member).
